Product short description:

This multideck display cabinet is ideal for places with many visitors, products are beautifully presented and it keeps products perfectly chilled. The refrigerator is also easy to clean and very reliable and the glass sides and efficient LED lighting ensure that products are accentuated. It is operated by means of a user-friendly digital control panel on the bottom of the cooler, which makes it easy to set the temperature as desired. In short, a compact multideck display cabinet of good quality, for occasions where space is limited.
