

# Centrifuge - J100 Ultra Automatic Robot Coupe

Reference: CF891

2,249.00€ tax excluded

**Product short description:**

Robust and reliable, the J100 Ultra Robot Coupe juicer is a high-tech device specially designed to withstand the most intensive of uses. With a powerful and durable 1000W motor, the juicer operates at speeds of up to 3000 RPM which means juice is extracted quickly without oxidizer. This guarantees a juice that is both smooth and full of flavor. The automatic continuous flow feeding system provides very high efficiency and can produce up to a glass of juice every seven seconds. With a low noise level and with a large capacity drain pan, the J100 Ultra Robot Coupe is perfect for use in smoothie bars, as well as in all establishments requiring the production of large quantities of juice.

**Product features:**
