Product short description:

The Tangier perfectly combines an elegant design with updated technological features, such as the soft-touch digital thermostat integrated in the glass door surface. 4 rotating trays. The absence of profiles and protrusions, the incredible rationalization and visibility of the interior space, the lighting with two rows of LEDs make the Tangier a unique glass product for visibility and display from all angles. Designed and built to guarantee high standards of product storage, Tangier represents the best of design and technology applied to refrigeration.
