

## Freezer with sliding door - Amsterdam -1m70

Reference: 06.203.000

**2,552.55€ tax excluded**

### Product short description:

The AMSTERDAM is a large freezer with plug-in technology that allows for quick and easy installation with low maintenance costs. The cooling technology is environmentally friendly yet highly efficient. It serves as a freezer preserver for frozen/chilled products. Retro design with great product visibility, the galvanized steel structure makes it sturdy and corrosion resistant. It has a tempered glass with low emissivity and anti-condensation, which allows energy savings. The structure is very resistant, with high quality finishes, and the thermostat is adjustable. LED lighting, 70 mm wall thickness and great adaptability of the point of sale layout.
