

2L Ice Cream Maker

Reference: CM289

369.00€ tax excluded

Product short description:

Quickly make high quality ice cream and frozen yogurt with the 2L Buffalo Ice Cream Maker. Equipped with a built-in freezer, there's no need to pre-freeze the bowl, saving you time and valuable freezer space. Once you've added the mix, the machine can produce up to two liters of deliciously tasty ice cream every 30 minutes to keep up with your customers' demands. It's also incredibly simple to operate and maintain, thanks to its digital controls and easy-to-clean stainless steel design. A superb choice for the professional caterer.
