

Buffalo insulated jug filter coffee machine

Reference: CW306

299.00€ tax excluded

Product short description:

Suitable for use as a manual or automatic refill machine, the Buffalo Filter Coffee Maker is a great choice for establishments that use pitchers to serve coffee. With a high output of up to 2 liters of coffee in six minutes, you can brew coffee quickly and keep it warm, even on last-minute demand. The Buffalo machine is very easy to use and has intuitive controls. The sturdy stainless steel construction makes it easy to maintain and clean.
